

General/Special Health Check-ups in 2022

The numbers and the rates of people who took the health check-up in 2022 are as below.
Most international students took the check-up thanks to the cooperation of faculty members of each laboratory. We will continue to make further efforts to improve health check-up awareness.

【General health check-ups】

【2022】 May 24th – May 28th

	Eligible persons	Exempted persons	Persons not examined	Persons examined	Examination rate
Students	1,038	136	21	1,017	98.0
Faculty and staff	594	103	20	574	96.6
Total	1,632	239	41	1,591	97.5

※Exempted persons are those who took a health check-up at other institutions, those who are in training at other institutions and students who are on leave.

【Special health check-ups】

【2022】 May 24th – May 28th

		Eligible persons	Persons not examined	Persons examined	Examination rate
Students	RI/x-rays	378	5	373	98.7
	Organic solvents	100	2	98	98.0
	Specialized chemical substances	283	5	278	98.2
Faculty and staff	RI/x-rays	95	0	95	100.0
	Organic solvents	42	0	42	100.0
	Specialized chemical substances	166	1	165	99.4
Total		1,064	13	1,051	98.8

【2022】 Nov. 28th – Nov. 29th

		Eligible persons	Persons not examined	Persons examined	Examination rate
Students	RI/x-rays	306	18	288	94.1
	Organic solvents	163	11	152	93.3
	Specialized chemical substances	438	24	414	94.5
Faculty and staff	RI/x-rays	111	5	106	95.5
	Organic solvents	48	3	45	93.8
	Specialized chemical substances	181	12	169	93.4
Total		1,247	73	1,174	94.1
