

Global Collaboration Program

Budget Guidelines

- For projects to send and/or accept students, a prorated daily allowance (up to 2,000 yen per day) may be provided based on students' existing benefits. For example, no daily allowance will be provided to students with scholarships such as JASSO.
- For projects to send and/or accept faculty members, daily allowance will be provided based on NAIST's Travel Policy.
- For conferences, etc., prior consultation with the international affairs department (of the administration bureau) will be necessary. Expenses for meetings may also be included in the budget. If a conference is organized outside of NAIST, expenses such as hall/room rental fees and transportation costs may also be included in the budget.
- For other budget implementation, related NAIST policies will be applicable.
