To all students

Lecture attendance, etc. in response to the Osaka medical state of emergency

Due to the continued spreading of the new coronavirus (COVID-19) infection, the Osaka prefectural government issued a medical state of emergency on December 3rd which asked that Osaka residents refrain from non-essential outings as much as possible until December 15th. Concerning this, NAIST will not prohibit students from coming to campus. However, depending on the developing situation, we ask that students residing in Osaka Prefecture or who commute through Osaka Prefecture discuss attending lectures online or by using the lecture archive with the faculty member in charge of the lecture during the state of emergency. For laboratory activities, please contact the laboratory faculty.
