

June 4th, 2020

To all faculty, staff and students

Measures concerning the new coronavirus (COVID-19) (June 4th announcement)

Concerning the response to the new coronavirus infection at NAIST: With the lifting of the state of emergency on May 25<sup>th</sup> for all the prefectures in Japan a transition period has been established with the assumption that a 'new type of lifestyle' will take over. For this, the calls to refrain from nonessential outings are being relaxed and levels which restrict the social and industrial activities of Japan are gradually being lowered as well.

We ask that all the faculty, staff and students read and understand the following requests concerning domestic travel and entering the campus.

**【Domestic travel】**

With the Japanese government's request for people who will travel to or through certain Kanto prefectures or Hokkaido prefecture to be very careful in their travels and activities, we ask all faculty, staff and students who will travel domestically for business, etc. to be extremely cautious when considering travelling to or through Saitama, Chiba, Tokyo, Kanagawa and Hokkaido prefectures until June 18th. We will announce the handling of domestic travel after June 19<sup>th</sup> at a later date.

**【Campus visitors】**

There are no specific restrictions for visitors entering the campus, but we would like them to pay attention to the following:

Make efforts to avoid the 3 Cs (closed spaces, crowded places and close-contact settings) and practice the basic measures to prevent the spread of infection, beginning with maintaining personal distance, wearing a mask and hand hygiene.

YOKOYA Naokazu

President, Nara Institute of Science and Technology
