

February 6, 2020

To all faculty, staff and students

Measures concerning the new coronavirus (2019 - nCov)

As was announced in the “Measures concerning the new coronavirus (2019 - nCov) (Feb. 5th announcement)”, in dealing with the possible spreading of the new coronavirus, faculty staff and students(including family members, etc.) who have returned to Japan from China, regardless of whether they have any symptoms or not, are to remain home for two weeks from the day that they arrived back in Japan.

Considering the above measure, there are students in the student dormitory who are not able to use the showers, etc. in the dormitory, due to them being shared. To allow these students the opportunity to bath during their stay-at-home period, they will be allowed to use the showers at the Fitness Center of Guesthouse Sentan. The Fitness Center will be closed for other faculty, staff and students from today, February 6, 2020, at 3 pm to March 1st, 2020 at 10 pm. for this.

Please note that the period for which students are required to remain at home may be extended and, in this case, we will announce this extension.

We thank you for your understanding in this matter.
