

## Confirmed case of new coronavirus infection at Nara Institute of Science and Technology (NAIST)

On August 18<sup>th</sup>, one NAIST staff member described below was confirmed as having been infected with the new coronavirus.

Age: 20' s

Sex: Female

On August 15<sup>th</sup> (Sun), the staff member took a PCR test and was diagnosed as "positive" that day. However, since this staff member has not entered the campus since July 7<sup>th</sup> (Wed), no one came in close contact with her at NAIST.

NAIST' s Crisis Measures Headquarters will continue to take measures to prevent the spread of infection based on the national and prefectural government policies.

※We ask for your cooperation and understanding in the protection of the staff member' s and his/her family' s privacy and personal information.
