

**Confirmed case of new coronavirus infection at Nara Institute of Science and  
Technology (NAIST)**

On August 23<sup>th</sup> (Mon), one NAIST student described below was confirmed as having been infected with the new coronavirus.

Age: 20' s

Sex: Male

On August 22<sup>th</sup> (Sun), the student took a PCR test which was determined to be "positive" the same day. This student was on campus until August 22<sup>nd</sup> and those who came in close contact with him are being asked to remain at home.

NAIST' s Crisis Measures Headquarters will continue to take measures to prevent the spread of infection based on the national and prefectural government policies.

※We ask for your cooperation and understanding in the protection of the staff member' s and his/her family' s privacy and personal information.
