

To all NAIST students, faculty and staff

Continued adherence to new coronavirus measures through Golden Week holidays

With the continued spreading of the new coronavirus (COVID-19) infection, a state of emergency was expanded on April 16th to include all the prefectures of Japan. Additionally, in heading towards the Golden Week holidays, the Nara Prefectural Governor has also made requests for both the refraining of all non-essential outings and the suspension of operations at NAIST.

I realize that you are already cooperating in the implementation of various measures NAIST has established to prevent the spreading of the new coronavirus (COVID-19) infection, but would like to once again stress the importance of strictly following the preventative measures. In relation to the upcoming holidays, I am asking everyone to refrain from travel outside of their own residential areas.

YOKOYA Naokazu

President, Nara Institute of Science and Technology
