

How to calculate average grade points for MEXT scholarship application

If you want to calculate average grade points, please use the following table.

	Grade				
4 level evaluation		A	B	C	F
		100-80	79-70	69-60	59-
5 level evaluation	S	A	B	C	F
	A	B	C	D	F
	100-90	89-80	79-70	69-60	59-
Grade points	3	3	2	1	0

Calculation method

(total credits of each grade × grade point) / total credits of all grades

e.g. If your grades are like this, S 11 credits A 15 credits B 6 credits C 4 credits

$$(11 \times 3) + (15 \times 3) + (6 \times 2) + (4 \times 1) / 11 + 15 + 6 + 4$$

↓

$$94 / 36$$

↓

$$\underline{2.611111111}$$

↓

$$\underline{2.61}$$

1. Classes without credit hours are counted as 1 credit.
2. Credits without grade like "Pass" are not included for calculation.
3. Average grade points should be rounded down to two decimal places.
e.g. 2.611111111 → 2.61
4. Only credits appearing on the transcript at the time of scholarship application should be included for calculation.
